Animal Character Design

This is a simple activity for tweens/teens to enjoy and get creative!* They can begin with either template as long as they both match in description. On the sheet that says **WRITE**, they can fill out the boxes to make up their character. It can be anything they want, as long as it's appropriate. Try to keep the Character's attributes, home, etc. similar to facts. Research on your animal of choice is encouraged! If you go onto our website @ ahrlib.org/Databases, you can find links that will get you the information you need!

On the page that says **DRAW**, be yourself in your creation! Adding attributes from facts and from your own creativity would make an awesome character. Make it unique in your own special way. Your animal can be humanoid or a creation of a new animal. Get creative and have tons of fun!

Here are some prompts:

- Favorite Animal
- Favorite Mythical Animal
- Favorite Cartoon Animal/Animal Character
- Pick an animal at random
- Animals you know a lot about

*Please make copies. Each child should receive one sheet of each template.

Thank you for your participation in the AHRL's 2021 Summer Reading Program!
