

# Clothespin Puppets

## Supplies:

- 2 clothespins
- Glue sticks or liquid glue
- Scissors
- Printed cardstock with unicorn and dragon

## Directions:

- Cut out the puppet outline.
- Also cut out the jaw, to separate the top part of the puppet from the bottom one.
- Apply glue on the gripping part of the clothespin.
- If you are using wooden clothespins, a regular glue stick or school glue will do.
- Stick the top part of the puppet on the top part of the gripping area, and the jaw on the bottom part of the clothespin's gripping area.
- Make sure the top part of the design is aligned with the bottom one.
- All done! Your dragon and unicorn puppets are ready for play!
